### [\*\*Agricultural Technology Research Program \(ATRP\) Celebrates 50 Years of Service\*\*](#)

Fifty years and countless research projects later, leaders of GTRI's Agricultural Technology Research Program (ATRP) say its secret to success remains the same: relationships.

### **Research Team Supports Critical Upgrade to U.S. Air Force AWACS Fleet**

More than 120 GTRI scientists, engineers, and technicians are helping the Air Force keep the nation's aging E-3G Airborne Warning and Control System (AWACS) aircraft in operation.

### **Nucleic Acid-Based Devices Will Rapidly Diagnose Sepsis, Respiratory Infections**

Researchers have received DARPA funding to develop novel diagnostic devices able to rapidly identify the bacteria causing sepsis – and viruses that cause respiratory infections.

## [Graduate Student Research Fellowship Program Continues to Expand for Third Year](#)

In the GTRI Graduate Student Research Fellowship Program (GSFP), selected academic researchers and graduate students work on research aligned with GTRI strategic technology priorities.
